Personal Statement

I am a recent graduate from Auckland University of Technology with a Bachelor's degree in Computer and Information Sciences, specialising in Software Development and Networks & Cybersecurity. I have a strong foundation in building applications, with hands-on experience across C#, Python, Java, and JavaScript, and practical exposure to Agile and Kanban workflows through a year-long R&D capstone project delivering an autonomous vehicle to a live client. I am methodical, a strong communicator, and motivated by writing software that works reliably in real environments. I'm looking for a graduate or junior role in software development, cybersecurity, or IT support where I can put those skills to work on real-world applications.

Technical Skills

Programming Languages and Web Technologies:

- C/C#, C++, Python, Bash, Java, JavaScript, HTML, CSS, React Native, SQL

DevTools and Environments:

- GitHub Copilot, Claude, Cursor, Git/GitHub, Linux, Windows, VSCode, Netbeans, Eclipse, Trello, MongoDB

Frameworks/Libraries:

- React, NodeJS, JUnit, ROS (Robot Operating System)

Cybersecurity

- Network security, hardware security, threat analysis

Methodologies, Frameworks & Documentation:

- Agile, Waterfall, Kanban, Microsoft 365, Excel, Google Docs, Microsoft Docs
-

Professional Skills

Teamwork: Proven ability to work effectively within a team, demonstrated through a year-long R&D capstone project delivering real software to a live client.

Communication: Strong verbal and written communication skills, developed through client meetings, stakeholder presentations, and collaborative teamwork environments.

Self-Directed Learning: Continuously expanding technical knowledge outside of formal study, including personal projects and AI/digital skills certification through academyEX.

Work Experience

AUT- R&D Project / Software Developer

17TH JULY 2023 - 21ST JUNE 2024, AUCKLAND

- Played a key part in a team of four that successfully delivered a project to develop an autonomous self-driving car using computer vision.
- Achieved excellent final grade for the project, and received commendation from the client on project handover.
- Recognised by mentors and the client for consistent attendance, clear communication across all stakeholders, and delivering on every deadline.

GitHub Portfolio

Personal Landing Website: A portfolio holding my information, written primarily in HTML, CSS, and basic JavaScript.

Desktop App Launcher: A Python based GUI application that launches user-chosen applications in user-made categories.

Password Tester: A Python based GUI application that tests your password using common rules and integrates with the HavelBeenPwned REST API.

Downloads Folder Organiser: A script that runs at system start to organise files downloaded into various folders in the background, e.g Downloads, Images.

Volunteering

Volunteer At Homeless Art Shelter and Giving Out Food to Homeless On Christmas

- Volunteered at Corban Estate to help the people in need of food and water. Showed adaptability by helping with what's needed such as gathering resources for people in need. Collaborated in spreading resources amongst the people who needed the materials like paint, flax, and carving tools.

Coach Football 2nd XI

- Helped train the 2nd XI team every Tuesday when the head coach wasn't available. Managed team during game day including warm up, subbing, and positioning. This led to developing management skills as I led this team and used my judgement to determine the roles and formation.

Qualifications/ Education

Auckland University of Technology / Bachelor of Computer and Information Sciences

2021-2024, AUCKLAND

Majoring in Software Development & Networks and Cybersecurity

academyEX / Certificate

2025-2026, AUCKLAND

AI Skills: Levels 1-3

Digital Skills: Levels 1-3

Waitakere College / High School Degree

2016-2020, AUCKLAND

NCEA level 1-3 Merit Endorsed

Interests

Computers and Tech

- Keeping up with new AI news, and new hardware releases.

Exercising and Reading

- Training my body with the gym, and my mind through reading books.
